

WEST CENTRAL HOME & GARDEN TOUR

1 BASK IN THE COMPLIMENTS

Year after year, we hear from homeowners that one of their favorite things about being on the tour was interacting with visitors and answering questions. It's no secret that owning an old home takes a lot of work. You deserve to share the results of your labor!

1

2

2 SHARE A LOVE OF OLD HOMES

When we promote our passion for historic preservation with the greater community, it builds a group of people who care and feel personally affected by the destruction and degradation of old buildings in Fort Wayne.

3 RAISE FUNDS FOR THE 'HOOD

some things that the neighborhood association spends money on: homeowner programs (new sidewalks, home beautification, and security), planting dozens of park strip trees each year, signage, public art, and free resident events (egg hunt, block party, movie night, and mixers).

3

INSPIRE OTHERS

5

4

One of the reasons people love our event so much is because no two houses are the same. Whether your style is minimalist and modern or kitschy and quaint, we want to see it all. No house is too big or too small to inspire visitors. Feel like your walls are a little bare? Partner up with a local artist you love to showcase (and sell) their work!

MAKE SURE THIS UNIQUE EVENT KEEPS HAPPENING!

Each year, the Committee asks 50+ homeowners about being on the tour, and the most common answer we get is "I have too many projects, maybe next year." We've been putting on this event since 1982, and we can't do it without homeowners and renters opening their doors to the public. Your home will never be perfect, but people would love to see it just the way it is! ❤️
